## Potential Conflict of Interest

The National Workforce Registry Alliance (NWRA) relies on two pools of members to serve on the Review Panel(s) for PER: Standards and Data Committee members and general members. The NWRA is committed to identifying any potential conflicts of interest prior to assigning the Review Panel. Do you foresee any potential conflict of interest in a Reviewer from a specific state/registry? If so, please explain (e.g., the agency developed your registry software, you have a personal relationship with a professional at another agency, a registry or staff person was paid to deliver services to your agency, etc.).
